

## THE FOCUS ON THE ESSENTIAL BRINGS YOU REMARKABLE BENEFITS

### SAFE HOPPER

Airtight hopper with opening sensor to avoid malfunction

### PELLETS HOPPER WITH LARGE CAPACITY

Now with higher autonomy  
16/20 165kg  
25/32 190kg

### INTEGRATED RETURN TEMPERATURE ELEVATION

Avoid boiler condensing and damage without any extra external connection

### CERTIFIED BURN BACK PROTECTION VALVE

compleatly safe with double gas-tight seal

HIGHLY  
**95,3%**  
EFFICIENT

### ECONOMICAL

Thanks to our special boiler design together with our constant sensor monitoring, we can optimize the fuel consumption and efficiency under any circumstances, automatically without manual adjustments.

MADE IN  
**AUSTRIA**

### QUALITY

Easypell boilers are designed and built in Austria under the ÖkoFEN standard. More than 70.000 units working with this system worldwide, makes you expect a reliable and trouble free operation for years.

### SAFETY

Back burn safety valve, integrated return flow heating, soft start and controlled wood gas burning temperature are arguments for a safe and long last operation without intervention.

COMPACT CONTROL PANEL  
simply to use and program

ISOLATION  
100 mm to avoid temperature loss

AUTOMATIC HEAT EXCHANGER CLEANING SYSTEM  
Higher efficiency for boiler with less pellet consumption  
and without intervention

#### AUTOMATIC FUEL DIAGNOSTIC SYSTEM

Due to flame temperature and flue draft sensor the system adapts automatically to optimize combustion and heat requirement.

HIGH  
CAPACITY  
ASHTRAY  
Easy to empty

#### UNDERFEED BURNER PLATE

Very stable primary burning and self cleaning system  
without moving parts, hot beam igniting with only 250W  
consumption

#### FLEXIBLE POWER RANGE

Due to our flexible power adjustment system and approved long term maximum power output you can use Easypell for almost all single family household heating requirements, domestic hot water and pool heating. But also for smaller industrial use, wherever thermal energy is required.

#### LOW EMISSIONS

With Easypell you demonstrate care about the environment. We fulfill EN 303-5 Class 5 boiler standard same as Ecodesign ERP and almost all country standards for reducing pollution subsidy programs.

#### LOW MAINTENANCE TECHNOLOGY

Due to the automatic cleaning unit and burner deashing, there is only one yearly cleaning maintenance necessary.

The large volume ashtray permits to store the ash and empty it only every 1-2 month.
